EDF NUCLEAR POWER PLANT SITE VISIT HUNTERSTON B

Institution of
**MECHANICAL
ENGINEERS**

Join us as we visit the historic Hunterston B nuclear power plant!

Hunterston B has generated electricity since 1976 and is currently operated by EDF Energy. It can generate up to 1000 MW and is one of the UK's best known advanced gas-cooled reactors.

Only 20 spaces available, so sign up now to avoid missing this rare and interesting opportunity for free guided tour of the plant.

21st February 2019

Power Station Rd
Hunterston
West Kilbride
North Ayrshire
KA23 9QX

To book and for more information on free minibus transport to and from the site, please visit: <https://tinyurl.com/IMechE-EDF2019>
