

“CAN CRYOGENIC LIQUIDS BE THERMODYNAMICALLY EXPLOITED FOR ENERGY SYSTEMS APPLICATIONS?”

MEASURING EVAPORATIVE HEAT TRANSFER TO LIQUID NITROGEN DROPLETS IN SUPERHEATED IMMISCIBLE LIQUIDS

SPEAKER: DR NEVILLE REBELO

DATE: TUESDAY 26TH MAY AT 7.30PM TO 8:30PM.

Speaker Dr Neville Rebelo is a Research Fellow at the Gas Turbine and Transmissions Research Centre (G2TRC) at the University of Nottingham. He holds a PhD in Mechanical Engineering (2019), awarded by Loughborough University, an MTech in Cryogenic Engineering (2012), awarded by the Indian institute of Technology Kharagpur and a BEng in Mechanical Engineering (2008), awarded by Goa University. His main research interest is in thermofluids where he studies droplet dynamics and heat transfer to cryogenic droplets.

The webinar is free to attend, please use the following link to register
