Date: 24 July 2021 (Saturday)

Time: 9.45am – 11.30am

Venue: Online Platform (Zoom)

### Registration Fee

Fee: Free of charge

### Synopsis

This talk briefly defines a commercial vehicle in the Malaysian regulatory context. The characteristics of a commercial vehicle in terms of usage, weight, dimension and safety features will be explained within the boundary of the Malaysia laws and regulations governing the commercial vehicles and the relevant regulatory agencies involved. Finally, road worthiness will also be explored as it is vital for safe operation of commercial vehicles.

### Speaker Profile

**Dato Ir. Foong Choy Chye** is a practicing Mechanical Consulting Engineer and Principal of FCC Consulting Engineer. He is also the managing director of MV Teknik Sdn Bhd. His area of speciality is in the field of road transport engineering and automotive engineering. He graduated from Tunku Abdul Rahman College with a Diploma in Technology (Automotive) in 1980. In parallel, he sat for and passed the engineering external examination and registered with the Board of Engineers Malaysia as Professional Engineer with Practicing Certificate. He is registered with the Road Transport Department for vehicle plan submissions, vehicle modifications, vehicle supervisory and consultancy works.

In his 35 years of working experience in the road transport engineering as well as automotive engineering, he had extensive experience in commercial vehicles that include trucks, semi trailers, machineries, road transport rules and regulations, vehicle standards and codes of practice. He is a member of Technical Committee Commercial Vehicles, SIRIM to formulate Malaysia Standard for commercial vehicles, Penal members for the National Occupational Skill Standards (NOSS) for Remanufacturing and Automotive After-sales Servicing.

Dato Ir Foong was appointed as a member of Independent Investigation Panel by the Minister of Transport for

1. Bus Crash at KM 15, Cameron Highlands-Simpang Pulai Road on 20 December, 2010
2. Bus Crash at Genting Highlands-Kuala Lumpur Road on 21 August, 2013.

He also serves as Industry Expert Advisory Panel members for a number of local universities.
