&  
The Republic of Ireland Region of  
The Institution of Mechanical Engineers**

## Virtual Site Visit – Iarnród Éireann's Limerick Works

**18:30, Tuesday November 2<sup>nd</sup>, 2021**  
**Online via ZOOM - Booking Essential**

**[Booking Link – Click Here to Register](#)**

**Originally constructed in 1848** to serve the needs of the Waterford & Limerick Railway, Iarnród Éireann's Limerick Works performs running & heavy maintenance on the entire Freight & Infrastructure Department's fleet, as well as inspections & maintenance of the rolling stock for the Limerick & Cork commuter networks.

With an introduction from the **President of Engineers Ireland, Professor Orla Feely**, and hosted by **Iarnród Éireann's, Chief Mechanical Engineer, Peter Smyth**, you are invited to join a virtual tour of the Limerick Works, showcasing the excellent work done by Peter's dedicated teams of engineers & technicians. The event will include a brief history of the Limerick Works, recent developments, video introductions to the maintenance processes & equipment used and the future plans for the Limerick Works.

**This is a public event, there no attendance charge, but booking is essential.**
