

South Texas / IMechE Joint Meeting

Thursday, February 20, 2014

Program: BP Energy Outlook: 2030

Speaker: Albert L. (Luke) Keller

Vice President - BP America

Mr. Keller was Executive Vice President of the Gulf Coast Restoration Organization, prior to his present position. He has previously held a wide range of engineering, operations, business development, crisis management and general management positions in Amoco and BP, managing onshore oil and gas fields in Texas, the largest oil field in Egypt's Gulf of Suez, as well as BP's production in the Norwegian Sector of the North Sea. While Vice President of Amoco Caspian Sea Petroleum Company, he served four years as the initial Chairman of the Management Committee of the Azerbaijan International Operating Company, which managed the Azeri/Chirag/Gunashli development in the Azeri Sector of the Caspian Sea.

He was Chairman and President of Atlantic Richfield, managing their environmental and onshore environmental liabilities, land reuse issues, decommissioning and demolition activities, associated with the BP group of environmental liabilities in North and South America; he served as General Director of BP Production and Exploration in Vietnam until 2010.
