Join the Bath and Bristol Young Members' Panel for this incredible two day trip!

We will visit the Museum of Science and Industry (MOSI) in Manchester, have a networking night with the Manchester Young Members and spend a day at Alton Towers.

## MOSI

Here we will learn about RAF aircraft, the innovations of the Industrial Revolution and Manchester locomotives and railway. We will receive a talk and a demonstration of steam mill engines and see the Manchester Mill Demo.

## Networking Night

We will be having dinner with some Manchester Young Members, who will be more than happy to answer all your questions about MOSI and the role Manchester played in the Industrial Revolution.

The night will be spent at the Manchester Youth Hostel situated in the City Centre.

## Alton Towers

Wake up full of energy on Monday and get ready to spend a day at the famous Alton Towers! Here you'll get a technical talk about design and health and safety issues of roller coasters, plus lots of free time to experience your favourite attractions.
