Getting noticed and professional registration.

Want to know how to get noticed in the workplace? Want to discover what employers look for in a young engineer? Want to know how to professionally register with IMechE?

Join us at University of Bath for presentations from our guests.

You will get hints and tips on how to get noticed from a recent graduate, find out how to get professionally registered and find out what employers look for. With talks from Jill Dwyer, IMechE Business Development Executive; Aaron Bowsher, Engineering Manager at Cross Manufacturing; Laura Lawrence, Careers Advisor and one of our very own Young Members.

Once the session is over there will be food and drinks provided to give you the chance to network and ask any questions you have!
