Institution of  
**MECHANICAL  
ENGINEERS**

**PILATUS**

**Improving the world through engineering**

Join the IMechE Switzerland on a visit to Pilatus Aircraft! Pilatus is a designer and builder of turboprop-powered single engine military trainers, STOL transports and small business or regional transports. Last year saw the first flight of their new twin-turboprop-engined business jet, the PC-24.

We will receive a guided tour of their facility and places are limited, so book early to avoid disappointment.

This visit was kindly organised by Phil Peel.

**Friday, 19<sup>th</sup> August, 14:00**

Pilatus Aircraft Ltd  
6371 Stans  
Switzerland
